

To Foreign Nationals and Applicants from Overseas

Important Notice

When applying through the Web Entry system, you must enter the reference number for export control.

※The reference number is for export control purposes and is different from the examination number.

Applicants who are subject to export control must enter a reference number during the application process.

[Process for obtaining a reference number]

- 1. Before applying, contact your prospective academic advisor and obtain their approval to accept you for research supervision.**
- 2. If approval is granted, your prospective advisor will provide you with the “reference number” required for the online application.**
- 3. Enter the “reference number” in the online application system.**

(Applicants for Master’s & Doctoral Program in Mathematics, Policy and Planning Sciences and Master’s Program in Service Engineering do not need to obtain a Reference Number and enter it into the Web Entry system.)

It may take some time to obtain the Reference Number, so please contact your desired academic advisor well in advance before the application deadline
