// Important Notice //
Regarding the Waitlist of Admissions
Graduate School of Science and Technology
Degree Programs in Systems and Information Engineering

We will start to set up the waitlist of admissions as follows starting from the 2025 entrance examinations.

1. Programs to be subject
   - Master's and Doctoral Programs in Policy and Planning Sciences
   - Master's Program in Service Engineering
   - Master's and Doctoral Programs in Risk and Resilience Engineering
   - Master's and Doctoral Programs in Computer Science
   - Master's and Doctoral Programs in Intelligent and Mechanical Interaction Systems
   - Master's and Doctoral Programs in Engineering Mechanics and Energy
   - Doctoral Program in Empowerment Informatics

2. Implementation Details
   The waitlist of admissions will be implemented in the General Selection Process and Special Selection Process for Working Individuals conducted in January and February, and once available, a candidate will be notified in mid-March (In case of October admission for the Doctoral Program, it will be in early September).

3. Application Guidelines
   The following text will be added to the "10. Announcement of Acceptance & Enrollment Procedure" section of the Application Guidelines:

   Master's Program

   > In some cases, we offer the waitlist acceptance to applicants who took the entrance examination in January to February Selection Process. Applicants will be notified by phone (or e-mail in exceptional cases) around mid-March 2025 for April 2025 admissions.

   Doctoral Program

   > In some cases, we offer the waitlist acceptance to applicants who took the entrance examination in January to February Selection Process. Applicants will be notified by phone (or e-mail in exceptional cases) around mid-March 2025 for April 2025 admissions and around early September 2025 for October 2025 admissions.
